## SMART WAREHOUSING FOR SERIALIZED SUPPLY CHAINS

### Antares Vision Edge Warehouse Solution

Warehouses handling serialized products today must balance speed, accuracy, and compliance—often across both serialized and non-serialized products. The Antares Vision Edge Warehouse Solution streamlines operations, enforces global regulatory requirements, and connects seamlessly with existing enterprise systems for real-time visibility and control.

Whether you manage pharmaceuticals, chemicals, or consumer packaged goods, Edge helps your team move faster, reduce risk, and operate with confidence.

### Why choose our edge solution?

- Improved inventory accuracy and reduces labor costs
- Accelerates cycle times with real-time process automation
- Scalable from a single facility to global networks
- Integrates with all major ERP, WMS, and EPCIS systems
- Fully compliant with DSCSA, EU FMD, Brazil ANVISA, and other global regulations
- Works with both serialized and non-serialized products

### Built for complex serialized warehouse environments

From receiving and shipping to rework and sampling, the Edge Warehouse Solution brings structure and speed to every touchpoint, linking together existing ERP and WMS solutions with serialization requirements. It eliminates manual processes, standardizes data collection, and enables actionable insights that drive continuous improvement.

## How it works

Edge provides operational excellence by streamlining and automating workflow between your warehouse and your enterprise systems, orchestrating transactions and capturing critical data in real time. It supports:

- **Receiving:** Receive inbound purchase orders and returns with full traceability
- **Shipping:** Pick, pack, and ship processes with configurable logic
- **Rework & Sampling:** Support for aggregation and disaggregation, relabeling, and repackaging of goods
- **Compliance Management:** Automated, tamper-proof logs for regulatory readiness
- **Inventory Control:** Real-time updates across systems, ensuring data accuracy
- **Administration:** Manage rules, users, and permissions

## Feature highlights

- Configurable workflows and business rules
- Real-time integration with ERP, WMS, and serialization systems
- Automated compliance and audit trail generation
- Scalable for single or multi-site operations
- Serialized and non-serialized product support
- Integrated Analytics and Reporting
- Fast deployment with minimal operational disruption

## Implementation and support

- Antares Vision Group offers full-service turnkey implementations
- Our experienced team will work with you to configure and implement your EDGE solution to meet the specific needs of your warehouse operations
- We will identify, source, and deliver all required hardware components and leverage your existing systems
- We provide training and ongoing support to ensure the successful adoption of your solution

## Transform warehouse execution

With Edge from Antares Vision Group, your warehouse becomes a source of speed, accuracy, and insight. Gain the control you need to remain efficient and be compliant.
